The goal of the motion is to ensure that the Europe Region of WAGGGS conducts and documents a structured evaluation of the 2025 European Conference. The aim is to gain concrete insights into which conference format(s) work best for our region. Furthermore, through this motion, we aim to contribute to the global conversation on regional conference models and how diverse needs vary across regions — especially in light of the upcoming 2026 World Conference. To avoid duplication of resources within WAGGGS we recommend: If aspects of scope of the proposed evaluation will also be covered by the evaluation carried out by the World Board, we advise the European Committee to consult with the World Board. The implementation of specifically these aspects that are put forward by this motion will be considered as part of the Global evaluation only if done in a detailed manner. Then there will be no need for an additional evaluation of these specific aspects by the Europe Region Committee. Nevertheless these aspects of the evaluation must also be shared within the timeline of this motion. If this is not possible, then the motion applies in full scope and needs to be executed by the European Committee. <i>Voted on by electronic ballot.</i>
